Integra **BOOST**

English

Instructions for use

How to use Integra BOOST

1. Remove the Integra BOOST packet from the clear outer wrapping and place it in an airtight, sealable container together with the contents to be preserved and protected.

2. Place the replacement indicating card inside the container and seal the container.

3. Integra BOOST regulates the relative humidity (RH) inside the container to the RH percentage stated on the packet.

4. Replace the packet when the dot on the indicating card turns blue.

Size guide

Packet size	Amount of product to be stored
67 g	up to 1 lb
8 g	0.5 - 1.0 oz
4 g	0.25 - 0.5 oz
2 g	up to 0.25 oz

Quantities and units follow the manufacturer's instructions.
